KL1000 Classic

Simple Keyless Access

The KL1000 Classic is a compact electronic digital lock ideal for replacing keyed cam locks commonly supplied on a wide range of lockers, cabinets and cupboards.

This neat lock is easy to fit, taking just a few minutes to remove the existing cam lock and making an additional top fixing. KL1000 Classic can also be fitted to a locker or cabinet that does not have an existing locking device - just drill another hole. Once in place the lock will perform up to 15,000 openings on just two AAA batteries. Access control without the need for keys.

FEATURES

- 11 button keypad
- 8 digit Master and Sub-Master Code
- 4 digit User Code
- 6 digit Technician Code
- Left hand and right hand horizontal versions available
- Up to 15,000 operations (2 x AAA batteries supplied)
- Ready to fit doors up to 25mm (1")
- Battery override
- Red LED will flash on opening to indicate low battery
- All parts / fixings / templates included
- Slam latch accessory available. Retrofit to existing KL1000 Classic locks or purchase for new locks
- IP55 rated when fitted with gasket (available separately)

FUNCTIONS

Private Function

This is the default function and is already pre-programmed in new locks. This function is used where the same code will be repeatedly used, e.g. an employee with the same locker/drawer in the workplace.

Public Function

In this function the KitLock operates with a single User Code. The user enters a personal four digit code, this locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short term, multiple occupancy applications, e.g. hot desking in an office or a locker in a sports club.

KL1000 HANDING

Vertical

The vertical models are non-handed and supplied to suit Right or Left Hand hung doors.

Horizontal

The horizontal models are handed and available in Right or Left Hand versions.

KitLock by Codelocks is a convenient and stylish alternative to traditional key-operated locker locks. Cabinets and lockers in any setting including gyms, leisure centres, schools, hospitals and offices can be opened using a code, eliminating the inconvenience of coins and keys.

Code Management

KL1000 Classic has four code levels available:

- 8 digit Master Code
- 8 digit Sub-Master Code
- 4 digit User Code
- 6 digit Technician Code

The KitLock is supplied with two factory set codes:

- Master Code
- User Code

Before installing, change the Master and User Code by following the Programming and Operating Instructions.

 Easy to install
  On the door programming
  Two year guarantee²
