

MATERIAL SPECIFICATION & INSTALLATION GUIDE

PRODUCT ITEM CODE & DESCRIPTION

ML 230 ~ STAINLESS STEEL SOAP DISH WITH DRAIN HOLES

COMPONENT MATERIALS:

#304 Grade Stainless Steel / Exposed Surfaces #3 (S) or #4 (B) Finish / Welded Bracket & Mounting Flange with Set-Screw / Concealed Wall Plate

DIMENSIONS:

Overall ~ 110mm W x 50mm H x 108mm D

INSTALLATION:

1. Subject to Australian Building Code Regulations for able bodied and/or disabled use as may be applicable, locate height & mark on wall. It is recommended that the unit is installed whereby it clears any other fixtures by at least 50mm
2. Remove grub screw from underside of Mounting Flange, remove Mounting Plate and then place a small amount of "wet area" rated silicone sealant to rear, around the full perimeter, then secure to wall surface with appropriate screws/wall-plugs
3. It is recommended to cover screw & head interface with a small amount of silicone to inhibit water ingress into fixing area. Clean off any excess silicone and leave to cure/set for at least 24 hours before use
4. Secure unit by hanging Flange in place and secure with set-screw

These units should only be installed by a competent tradesperson and Metlam Australia takes no responsibility for any damage to walls or fixtures due to incorrect installation.
