Access Just Got Smarter

The Ultra-Secua by McGrath Smart Locks is a digital lock designed specifically for screen door applications. A great addition to the home, office or business, this 4 in 1 digital lock provides a versatile and convenient method of entry that allows you to easily manage who has access to your property. The Ultra-Secua can retrofit most screen door locks on the market including triple locking screen doors. It has been designed with a unique security feature on the inside handle that can stop it from being operated through a damaged fly screen.

Utilising the powerful McGrath Locks App, lock and user settings are easily configured and managed. Access can be provided to family and visitors alike through PIN code, RFID credential, eKeys managed via BLE and mechanical key override. The Ultra-Secua can be connected to a gateway giving you the ability to unlock your door from anywhere in the world using the McGrath Locks App.

The Ultra Secua has an IP66 rating making it a durable and reliable solution for challenging conditions. The lock is supplied with a lock body, key cylinder and batteries to make your installation a breeze.

Bluetooth

PIN Code Unlock

RFID Unlock

Key Override

Wi-Fi (Gateway required)
